- Non Destructive testing
- Fitness for service

● Failure cases

- Repair welding
- Corrosion
- Practical cases

⊙ Automatisatie | New processes

- Robot welding
- Welding jigs
- Additive Manufacturing

Submission

Your proposal for a thematic presentation under the session Inspection | Monitoring, Failure cases or Automatisatie | New processes is to be received before May 31st 2019.

Please send us a title and summary of maximum 200 words by email to:

lassymposium@bil-ibs.be. Mention the name and function of the person giving the presentation. Presentations can be given in English.

Selection

The selection of the papers will be done by the Scientific Committee of the Belgian Welding Institute, in joint deliberation with the Dutch Welding Institute. You will obtain further details about the length of the effective presentation and other requirements upon acceptance of the submitted proposals.

In principle you will get a time of about 30 minutes, including discussion. As conference speaker you will be our guest during the symposium and you will not pay registration fees.
